

Rev. E

Revision Date: February 17, 2023

1. Product and Company Identification

Product(s) Concentrated antibodies (MCXXXX, RMXXXX, RCXXXX)

Prediluted antibodies (MCXXXXRTU7, RMXXXXRTU7, RCXXXXRTU7)

Citrate Buffer AR Solution pH 6.0 (10X) (DR0234) FluorSealTM Aqueous Mounting Medium (DR0020)

MedaFluo™ Autofluorescence Blocking Reagents (MBXXXX)

MedaFluo™ Mounting Medium (MMXXXX)

Michel's Transport Medium Michel's Transport Wash Buffer Primary Antibody Diluent (DR0246)

Sterile Physiological Saline (Sodium Chloride 0.9%) Tris EDTA Buffer AR Solution pH 9.0 (10X) (DR0235)

Tween 20 (DR0040)

Related Product Kit(s) MedaViewTM Polymer-HRP or –AP Detection Kits (DPXXXX)

MedaFluoTM Immunofluorescent Detection Kits (MFXXXX) DuoFluoTM IF Double Staining Detection Kits (DFXXXX) Ultra-Sensitive Mutation Detection Kits (XXXXXXXX-20, -50)

Intended Use & Restrictions Company Information Intended for use by professional laboratory personnel properly trained in its use.

OSHA Hazards

Not Hazardous

While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

GHS Classification Signal words, Symbol, Hazard & Precautionary Statements Potential Health Effects

Not Hazardous

Skin Contact
Eye Contact

May be harmful if exposed to skin. May cause skin irritation, itching, redness or inflammation. May be harmful if exposed to eyes. May cause eye irritation, watering eyes, stinging or

burning sensation.

Inhalation May be harmful if inhaled. May cause respiratory tract irritation, headache, dizziness, nausea

or coughing

Ingestion May be harmful if swallowed. May cause irritation of gastrointestinal tract, nausea, or

vomiting.

See Section 11: Toxicological Information for additional information.

2. Hazards Identification

Emergency Overview This product has been classified as non-hazardous based on the physical and/or chemical

nature and/or concentration of ingredients.

Product has little to no hazards for Emergency Responders if spilled and has no unusual hazard

if in a fire.

Sodium azide (<0.1%) is included as a preservative. Although it is not considered hazardous at this level, please note that accumulated sodium azide may react with lead or copper plumbing to form highly explosive metal azides. Thorough flushing of plumbing is recommended.

Environmental Effects None identified.

See Section 12: Ecological Information for additional information.

3. Composition / Information on Ingredients

Chemical Name Synonyms % Composition CAS Number Sodium azide N/A < 0.1% 26628-22-8

Rev. E

Revision Date: February 17, 2023

Proprietary Composition,

multiple components N/A < 1% each N/A
Water N/A >99% 7732-18-5

Note: It has been determined that the remaining ingredients of this product are not classified as hazardous according to the Federal OSHA Hazardous Communication Standard (29 CFR 1910.1200) or the Globally Harmonized System of Classification and Labeling of Chemicals.

4. First Aid Measures

General Advice Avoid further exposure to product. Consult a physician.

In case of skin contact Wash exposed area with soap and plenty of water. Remove any contaminated clothing.

Seek medical attention.

In case of eye contact Wash eyes with plenty of water for at least 15 minutes. Have victim remove contact

lenses. Be sure to wash under eyelids. Seek medical attention.

If inhaled Remove victim to well-ventilated area. If victim is not breathing, give artificial respiration.

Seek medical attention.

If swallowed If victim is conscious, rinse mouth with water. Do not give anything to an unconscious

victim. Seek medical attention.

5. Fire Fighting Measures

Suitable Extinguishing Media Water spray, alcohol-resistant foam, dry chemical, or carbon dioxide.

Use extinguisher media appropriate for surrounding fire.

Special Protective

Equipment for Firefighters Wear self-contained breathing apparatus and protective clothing to prevent contact with eyes

and skin.

Special Exposure Hazards None identified.

6. Accidental Release Measures

Personal PrecautionsUse of personal protective equipment is recommended as described in Section 8. Isolate hazard

area and deny entry to unprotected personnel.

Environmental Precautions Prevent further leakage or spillage if safe to do so. Keep out of drains, sewers, ditches and

waterways.

Methods for containment

and clean up

Small spills may be contained and cleaned-up with paper towels or absorbent pads. Absorb

large spills with sand or vermiculite and place in a closed container for waste disposal. Avoid

physical contact during removal.

7. Handling and Storage Precautions for Safe Handling

Conditions for Safe Storage

Avoid contact with eyes, skin and clothing. Do not ingest. Wash hands thoroughly after use. Avoid contact with eyes, skin and clothing. Do not ingest. Wash hands thoroughly after use.

Keep container tightly closed. Keep container in a cool, well-ventilated area.

8. Exposure Controls

Eye Protection

 $Permissible \ Exposure \ Limits \qquad Component \qquad Permissible \ Exposure \ Limit(s)$

Sodium Azide ACGIH, TLV: 0.29 mg/m3, ceiling NIOSH, REL-C: 0.3 mg/m3, skin

Engineering Controls No special controls needed.

Personal Protective Equipment

Wear chemical splash goggles and/or face shield when eye and face contact is possible due

to splashing or spraying of material.

Skin Protection Use chemically resistant gloves and a lab coat with sleeves.

Respiratory Protection Exceeding exposure limits is unlikely during normal usage. However, if irritating vapors are

produced, respiratory protection is recommended. Attempt to reduce exposure levels to an

acceptable

range.

General Hygiene Measures Avoid contact with eyes, skin and clothing. Wash hands thoroughly after handling and

before eating or drinking.

9. Physical and Chemical Properties

Appearance Clear solution. May be colorless or colored (tan, green, red, yellow), depending upon the

specific product.

Odor None pH (as supplied) Various

Melting point No data available **Boiling point** No data available Flash point No data available **Flammability** No data available Lower explosion limit No data available Upper explosion limit No data available Vapor pressure No data available Vapor density No data available Specific gravity No data available

Solubility (in water) Soluble

Partition coefficient

(n-octanol/water)No data availableAuto-ignition temperatureNo data availableDecomposition TemperatureNo data available

10. Stability and Reactivity

Chemical Stability Stable under recommended storage conditions (see Section 7).

Conditions to avoid Avoid buildup of sodium azide in copper or lead plumbing. Thorough flushing of plumbing

with water is recommended.

Materials to avoid Contact of sodium azide with heavy metals may form explosive azides. Contact of sodium

azide with acids may liberate toxic gas.

Hazardous decomposition

Products Hazardous decomposition products formed under fire conditions: carbon monoxide, carbon

dioxide, nitrogen oxides, hydrogen chloride gas.

Possibility of hazardous Contact of sodium azide with heavy metals may form explosive azides.

Reactions Contact of sodium azide with acids may liberate toxic gas.

11. Toxicological Information

Acute dose effectsNo data availableRepeat dose effectsNo data availableSkin irritationNot determined

Skin and respiratory

SensitizationNot determinedEye irritationNot determined

Carcinogenicity No component of this product present at levels greater than or equal to 0.1% is identified as a

probable, possible, potential, known, anticipated, or confirmed carcinogen by IARC, ACGIH,

NTP, or OSHA.

MutagenicityNo data availableReproductive effectsNo data availableDevelopmental effectsNo data availableTarget organ effectsNo data available

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated at product concentrations.

12. Ecological Information

Ecotoxicity No data available **Bioaccumulation/accumulation** No data available **Mobility in environmental media** No data available

Other hazardous effects May be harmful to the environment, particularly aquatic organisms.

13. Disposal Considerations

Product Disposal should be in accordance with applicable national, state, and local laws and

regulations. Local regulations may be more stringent than national or state requirements.

Verify local and state regulations before discharging into public sewers or landfills. Do not

Contaminated packaging dump into any body of water. Contact a licensed professional waste disposal service for

appropriate methods of disposal.

Dispose of as unused product.

14. Transportation Information

Proper shipping name Not applicable Technical name Not applicable Not applicable Hazard class Not applicable Identification number Not applicable Packing group DOT (US) Not regulated Not regulated **IMDG** Not regulated **IATA** TDG Not regulated

15. Regulatory Information

Inventory Status

United States (TSCA) All ingredients are on the inventory or exempt from listing.

Canada (DSL / NDSL) All ingredients are on the inventory or exempt from listing.

SARA 302 Components Sodium azide: CAS 26628-22-8

SARA 313 Components Sodium azide: CAS 26628-22-8, Concentration <0.1%

SARA 311/312 Hazards Sodium azide: Acute health hazard

California Prop. 65 components This product does not contain any chemicals known to the State of California to cause cancer,

birth defects, or any other reproductive harm.
